TECHNICAL SKILLS

MOBILE
Flutter · Dart

LANGUAGES
Java · JavaScript · Python · C++ · SQL

BACKEND
Spring Boot · Spring MVC · Node.js · FastAPI

API INTEGRATION
REST APIs · JSON · HTTP

DATABASES
PostgreSQL · MySQL · MariaDB · Redis

TOOLS
Git · GitHub · Docker · Maven · Android Studio · VS Code

LANGUAGES

English	Fluent
Kinyarwanda	Fluent

Izabayo Nadine

JUNIOR SOFTWARE DEVELOPER

Flutter & Dart · API Integration · Backend Development

PROFILE

Software Programming and Embedded Systems graduate from Rwanda Coding Academy with practical experience building software applications, backend services, and REST APIs. Developed InziraX, a Flutter and Dart mobile app for traffic management and road safety, applying skills in mobile UI, maps, and backend integration. A motivated and adaptable developer with a strong foundation in software engineering and a commitment to building reliable, user-focused applications.

PROJECTS

InziraX

Personal Project

Traffic Management and Road Safety Application · Flutter & Dart

Mobile application that helps road users access route information and road-safety updates.

- Developed the mobile application using Flutter and Dart.
- Built map-based and route-related features using Mapbox.
- Developed the mobile frontend alongside a FastAPI backend that supports application services.
- Implemented road incident and hazard reporting features.
- Tested, troubleshot, and improved reliability; managed source code with Git and GitHub.

Flutter · Dart · Mapbox · FastAPI · Python · Git · GitHub

Hospinix

Full-Stack App

Hospital and Pharmacy Management System

Healthcare management platform supporting hospital and pharmacy operations through digital workflows.

- Developed backend services and REST APIs using Java and Spring Boot.
- Implemented persistence with PostgreSQL, JPA, and Hibernate.
- Built authentication and role-based access control for different user types.
- Created responsive interfaces with React and Next.js and integrated them with backend APIs.

Java · Spring Boot · Spring MVC · PostgreSQL · JPA · Hibernate · React · Next.js · REST APIs · JWT · Git · GitHub

UweraAI

Team Project

AI-Powered Learning and Assessment Platform · Backend Development

Learning platform supporting educational activities, assessments, and student progress tracking.

- Developed backend functionality using Java and Spring Boot and designed REST APIs for service communication.
- Worked with PostgreSQL and Apache Kafka for data management and inter-service messaging.
- Contributed to authentication, application security, and API documentation.
- Used automated testing tools and collaborated with frontend and backend teammates to integrate services.

Java · Spring Boot · Spring Cloud · Spring Security · JWT · PostgreSQL · Apache Kafka · Redis · Neo4j · JUnit · Mockito · Git

CORE STRENGTHS

- Problem-Solving
- Debugging
- Teamwork
- Communication
- Adaptability
- Time Management
- Independent Learning
- Attention to Detail

JobMatch

Full-Stack App

Job Matching Platform

Platform connecting job seekers with relevant employment opportunities.

- Built responsive user interfaces using React and Next.js.
- Developed backend REST APIs with Node.js and integrated them with the database.
- Implemented job discovery and role-based functionality for different user types.

JavaScript · React · Next.js · Node.js · REST APIs · Git · GitHub

EDUCATION

Rwanda Coding Academy

2023 – 2026

Software Programming and Embedded Systems · Nyabihu, Rwanda

Technical training in software programming, application development, databases, software engineering, embedded systems, networking, cybersecurity, DevOps, robotics, and machine learning.

LEADERSHIP & EXPERIENCE

Volunteer Mentor

2025

Ideation and Prototyping Program · Rwanda Coding Academy

- Mentored Year 1 students in ideation and prototyping methodologies.
- Explained technical concepts clearly and supported students in developing technology-based project ideas.
- Strengthened communication, teamwork, and problem-solving skills through mentoring.

Minister of Environmental Affairs

2025

Student Government · Rwanda Coding Academy

- Coordinated environmental and cleanliness initiatives within the school community.
- Collaborated with students and school stakeholders to organize activities and manage responsibilities.
